

Rémi Bourgerie

Stockholm, Sweden | remibo@kth.se | in/rbourgerie | Google Scholar | GitHub

3rd year PhD student in CS, with industry experience in different AI teams. Research focuses on Graph Neural Networks.

EDUCATION

PhD in Computer Science <i>KTH Royal Institute of Technology</i>	Nov. 2023 – Present <i>Stockholm, Sweden</i>
• Research focus: Graph Neural Networks, Federated Learning, • Advisors: Viktoria Fodor, Sarunas Girdzijauskas • Published comprehensive survey on collaborative learning (TMLR)	
MSc in Machine Learning (Double Degree) <i>KTH Royal Institute of Technology</i>	2021 – 2023 <i>Stockholm, Sweden</i>
Engineering Degree <i>École Centrale de Lyon</i>	2019 – 2023 <i>Lyon, France</i>
Preparatory classes in Mathematics & Physics <i>Lycée Fénélon Sainte-Marie</i>	2016 – 2019 <i>Paris, France</i>

PUBLICATIONS

- [TMLR] R. Bourgerie et al. *From Euclidean to Graph-Structured Data: A Survey of Collaborative Learning*, Transactions on Machine Learning Research
- [ICDMW23] R. Bourgerie, T. Zanouda. *Fault Detection in Telecom Networks Using Bi-Level Federated Graph Neural Networks*, IEEE ICDM Workshops, FedGraph, 2023

INDUSTRY EXPERIENCE

Research Intern <i>Ericsson Global AI Accelerator</i>	2022 – 2023 <i>Stockholm, Sweden</i>
• Developed bi-level federated GNN for telecom fault detection • Published MSc thesis at IEEE ICDM Workshop, co-authored 2 patents	
Computer Vision Intern <i>Altametris</i>	May – July 2021 <i>Paris, France</i>
• Developed defect detection model from drone imagery for infrastructure monitoring	

SERVICE & LEADERSHIP

Student Volunteer , <i>International Conference on Machine Learning for Communication and Networking (ICMLCN)</i>	2024
Vice-President , <i>Erasmus Student Network Stockholm</i>	2024–2025
• Managed 20+ volunteers across 100+ events serving 2000+ international students	

TECHNICAL SKILLS

Machine Learning: Graph Neural Networks, Federated Learning, Deep Learning, PyTorch
Engineering Foundations: Fluid Mechanics, Solid Mechanics, Signal Processing, Physics, Systems Modeling
Programming & Tools: Python, Git, Linux, Docker, MLOps pipelines

LANGUAGES

French (native), English (fluent), Spanish (intermediate), Swedish (basic)
